SUBSCRIPTION: \$2.00 PER YEAR; \$2.50 U.S. AND FOREIGN

HOME AND SCHOOL ASSOCIATION

The USA will hold its April 3 meeting on Wednesday, April 3 at 8 p.m. in the school. Special features of the meeting will be the elimination contest in the United Nations' Oratorical Competition, which is being sponsored by the Odd Fellows Lodge. Speakers from Killam, Lethbridge and Wainwright will take part. Also the pictures being placed in the school in memory of Mrs. Cap Larson and Mrs. Chase will be officially presented to the school.

All the people of the community are cordially invited to this meeting.

WAINWRIGHT BAND TO PLAY IN MANVILLE

The Wainwright Town Band will present a concert at the Manville Theatre March 31 at 8 p.m. Admission, silver collection.

EASTERLY ECHOES

Mrs. Jack Savard plans to have the next W.L.C. card party at her home, Sodden, March 30.

Edna and Yvonne Crabb and Brian Veer are home with the measles.

In spite of considerable snow still to thaw, a robin, crow and gopher were seen last week on the Crauford farm.

Doris Holt and Jack Savard enjoyed a wrestling match in Edmonton.

Messrs. Bill and Joe Holt of Kamloops, B.C., visited with their parents, Mr. and Mrs. John Holt last weekend.

Mr. and Mrs. Holt spent a week in the city visiting their two sons and daughter.

We were sorry to hear of Mrs. Willerton's accident. Hope you soon feel better Eleanor.

Irma Ladies Attend LOBA Meeting at Medicine Hat

At the recent meeting of the LOBA Grand Lodge at Medicine Hat, Mrs. J. Jackson was elected to the office of Right Worshipful Junior Deputy Mistress of Alberta. Mrs. Jackson was also commended for her good work in the church. She was re-elected to the board of Alberta Protestant Home for Children for another three year term.

Mrs. Herbert was presented with a Right Worshipful honorary membership certificate to the Right Worshipful Grand Lodge of Alberta on the occasion of her 70th birthday.

Mrs. Stephenson, the former Elifreda Fenton, was given the position of Grand Auditor.

These ladies were each presented with a lovely plate made at the Medicine Hat Pottery. They also received a gift from the Pottery and shown how cups and other dishes are made. They speak most highly of the hospitality shown them during their visit.

Card of Thanks

We wish to thank our many friends and relatives for the lovely chime clock, silver tea service, silver tea pot and chest of silver which were given to us on our silver wedding anniversary and for the lovely evening that was arranged for us. We would also like to thank those who sent cards of congratulations.

Haakon and Vera Larson.

Weekly Inspirational Corner

(Sponsored by an Irma Times reader)

Now faith is the substance of things hoped for, the evidence of things not seen.

For by the elders obtained a good report.

Through faith we understand that the world's were framed by the word of God, so that things which are seen were not made of things which do appear.

But without faith it is impossible to please him, for he requires a man to come to God must believe that He is, and that He is a rewarder of them that diligently seek Him.

Heb. 11: 1-3, 6

WITH THE

District Agriculturist

By J. S. Duncan

Fertilizers for Hay and Pasture

Far too often the hay or pasture on a farm is accepted as something which cannot be changed or improved, if it is not producing properly, it is too bad but there is no effort made to improve it. In many cases a proper use of fertilizer could bring the field back into production without too much expense.

On mixtures of grasses and legumes it is likely that an application of either 12-14-0, or 16-20-0 at 75 to 100 lbs per acre will give the best results.

In fields probably ammonium nitrate 33-0-0 at about 100 lbs per acre will be better. The use of anhydrous ammonia on grass, particularly Bruece, which has become root bound will give two beneficial effects, the nitrogen will help the grass and the use of the sod with the cultivator used to apply the ammonia. With the increased number of applicators around the country it shouldn't be hard to get it done.

It costs very little to fertilize a small acreage as a trial to see what results you get.

Soil Erosion

This is a very serious problem in the Wainwright area, caused from both wind and water erosion. Soil which has very little fibre left in it will erode easily and is more subject to erosion.

Returning all straw and stubble to the land will help, but the best treatment is the regular use of the crop to reduce erosion. The proper use of machinery is also very important, speed is one of the worst enemies of our fields as speed causes pulverization with most machines. Use of cultivators or blade equipment instead of disc type is good soil management.

Rat Control

With the return of spring rats

watching for any sign of them and at the first suspicion get in touch with your Pest Control Officer. Keep bait stations out and baited if you are in an area where rats have been found.

CANDID DATUM ON CIVIL DEFENCE

UNTIL we have achieved a permanent secure peace, UNTIL we can be sure that no enemy will attack on this country, CANADA NEEDS CIVIL DEFENCE.

CIVIL DEFENCE is not "the government's job"—any government's.

Federal C.D. is a small co-ordinating organization, planning a National Civil Defence program; ensuring an advanced air raid warning system; providing central training facilities; carrying out research and working towards co-operation with NATO countries.

Provincial C.D. is the area planning and training organization through which projects involving various Municipalities are carried out.

Municipal C.D. with the aid of provincial and public agencies and services, organizes evacuation, reception and rehabilitation techniques to fit local conditions.

Civil Defence is a Citizens Movement

The threat of atomic warfare cannot be dismissed or treated lightly. We can hope to avert it by:

1. Unremitting efforts towards peace.
2. The power to retaliate.
3. Preparedness to survive attack.

"There are four sorts of Men—He who knows not and knows not he knows not—he is a fool—shun him."

He who knows not—he is simple—he knows not—he is a fool—teach him.

He who knows and knows not—he knows; he is asleep—wake him.

He who knows and knows he is wise—follow him." (Arabian Proverb).

Although all wood does not conduct heat readily, the lighter woods provide the best insulation. This is because they have a greater proportion of closed air spaces in their cellular structures.

SURPRISED ON 30th ANNIVERSARY

More than twenty friends and relatives dropped in to surprise Mr. and Mrs. G. Hurst on March 16 to help them celebrate the occasion of their 30th wedding anniversary.

Entertaining was spent in playing cards and joining in a lively sing song with Audrey Jones at the piano. Iris Hurst and Edmonton was home for the occasion and the presentation of a pop-up toaster was made to the bride and groom of thirty years ago. The couple were well set up topped off with a wedding cake decorated by their daughter Mrs. E. Owen. Irma wife of Mr. and Mrs. Hurst many more happy anniversaries.

Glen-Coa Gleanings

We welcome the following two young men to our community again, Gordon Hollings who has returned from the University of Alberta, and Raymond Brunneau who is going to help his dad, Mr. R. Neftan.

Mr. and Mrs. O. Raasch and girl accompanied by Mr. O. Steffensen were city visitors the first week in March. Mr. and Mrs. E. Erickson and boys were in Edmonton on Tues-

day.

Apparently this correspondent got our measles victim a bit mixed last week. Velma Smallwood and Arnie Gibbons should remain home. We are glad to hear, we hear on good authority that Carol and Fay Russell, Esther Fluievor and Marcy Fuder are home with the said disease this week. A good recovery is wished each one.

Sharon Ladies Aid plan a program at the church on Friday April 12. Mrs. Raasch will be in charge of the mission program.

A federal proclamation just issued states that Victoria Day will be celebrated on Monday, May 25.

Those taking orders are Mrs. L. Savage, Mrs. Harday Barsa,

Mrs. E. Meyer, Mrs. Oracheck,

Mrs. D. Drewicki, Mrs. W. Hub-

man, Mrs. L. Van Gietje, Miss

A. Donoghue.

CHURCH SERVICE
TO BE BROADCAST
FROM WAINWRIGHT

On Sunday, July 7, St. Thomas' Church, Wainwright, will

broadcast the morning service direct, on the new com-

munity radio station CKSA, located in Lethbridge. This will

be the first day broadcast will be repeated locally prior to transmission.

The actual cost will be negli-

gible as the air time will be

donated to the churches by the

station.

Broadcasts throughout the

year will include most of the

churches in the Lloydminster,

Vermilion and Wainwright ar-

ea.

Water may make up half the

weight of a well filled tree

and will reduce its moisture

content to one-quarter after

kiln drying is necessary to drive

off further moisture.

Eddie Herder Passed Away

Irma folk are most sorry to hear that Eddie Herder, who had been ill in Wainwright hospital for the past week, passed away early Thursday morning, March 28.

Northern Nuggets

Born to Mr. and Mrs. Ken Guy of Edmonton on March 19, a son Leonard Earl, a brother for Sharon and Dale.

Ken Guy returned home from the Coast on Friday.

Because of illness Miss Jean Fleming was unable to leave for the East last Saturday as planned. However, she is feeling much better and hopes to be on her way shortly.

Mr. and Mrs. G. Pennington and their three Peasant River visitors last weekend.

Mr. Stanton Coulton spent last week at Irma.

Could we go on a limb and say Spring is here? Some see Starlings, Rocky Mt. Blue Birds and gophers, but where is that wise old crow?

Plant Sale

St. Theresa's Plant Sale will take place Saturday, May 25. You will be apprised of the details in the May 15, newspaper.

Those taking orders are Mrs. L. Savage, Mrs. Harday Barsa,

Mrs. E. Meyer, Mrs. Oracheck,

Mrs. D. Drewicki, Mrs. W. Hub-

man, Mrs. L. Van Gietje, Miss

A. Donoghue.

Jarrow News

Mr. and Mrs. Wm. Boyd were recent visitors at the W. Jameson

home. The W.A. will meet with Mrs. Percy Wright on April 2 at 2:30 p.m. Hostesses, Mrs. Wright and Mrs. G. Bridgeman. Everyone welcome.

A donation in memory of Mr. Reiter will be taken. United Church Memorial Fund from Mr. and Mrs. Oracheck.

There will be service at the church on April 7 at 3 p.m. with Rev. Ingalls.

Cecil Lockhart was the lucky winner of the blanked which was raffled at the Patrick's Day dinner at Kinsella. A nice start for a hope chest, we'd say.

Mike Oracheck was pleasantly surprised the other day when one of his cows presented him with twin calves. This isn't an uncommon occurrence, but as it was the first set of twins ever born in an Ontario barn, it was something out of the ordinary.

Miss Open Lundberg of Wainwright spent the weekend at the Bear home.

Carl Sonnen attended the Findlay home last Wednesday. His father K. Sonnen came back with him and spent a few days.

Mr. and Mrs. Barry Holt are attending the Bull Sale in the city this week.

The week day broadcasts will be repeated locally prior to transmission.

The actual cost will be negligible as the air time will be donated to the churches by the station.

Broadcasts throughout the year will include most of the

churches in the Lloydminster,

Vermilion and Wainwright ar-

ea.

Wedding Bells

DUDGEON — YOUNKIN

Kandi and Teh-ourou, Dahomey, French West Africa, were the scene of a wedding which will interest many Irma people.

When John Youkner, the son of Mrs. Frank Youkner and the late Mr. Stanley Dudgeon of Eire.

The ceremony was two-fold, having a civil and a religious marriage.

At 11 a.m. on December 13, 1956, the couple, accompanied by three fellow missionaries, went to the office of the French Commandant at Kandi. Here they were seated on chairs in front of a big desk behind which sat the Commandant dressed in an official white suit with his badge of honor across his chest.

The section on marriage was solemnly read, identification papers checked, Jane and Stanley were asked if they would have each other, and thus the official marriage was made.

After a 170 mile drive to Tchouhou final preparations were made for the religious ceremony.

The ceremony was performed in the Sudan Interior Mission Native Church at Tchouhou, Dr. Playfair, General Director of the S.I.M. The church was tastefully decorated with large branches of bougainvillea and fourteen candles were lit in front of the altar.

Outside the church were arches made of palm branches and flame-of-the-forest blossoms.

At 3 p.m. to strains of organ music played by Mrs. Mary Draper, the bride walked down the aisle in the arms of Rev. O. Thamer. The bride looked charming in a floor length gown of white nylon over white satin, featuring a sweethearts neckline and five bunches. Her veil was bordered in a wide band of lace and held in place with a band of lace.

The groom was dressed in a floor length gown of delicate pink nylon and carried a bouquet of pink rubber-tree blossoms.

The little 3 year old flower girl was very dainty in a blue dress and carried a bouquet of roses.

The groom and the best man wore white coats and dark pants.

During the dedication prayer the soloist sang a beautiful hymn.

Following the ceremony a reception was held at the mission station where Rev. and Mrs. Thamer were hostess.

Refreshments were served in the garden during the afternoon. At 7 p.m. 39 guests. Sprays of bougainvillea decorated the table which was centred by a three tiered angel food cake. After-dinner speeches were followed by the presentation of many lovely wedding gifts. Following the meal a devotional message by the General Director, Rev. Playfair.

The happy couple left for a two week honeymoon after which they returned to Kandi to begin a united effort to reach the Bariba people with the Gospel of the Lord Jesus Christ.

Building hints and ideas

Finding suitable containers in which to mix small amounts of glue or paint or other materials is difficult—and often expensive if the material must be bought. By buying four units of a small piece of aluminum foil, however, one gets a little leak-proof tray of any size. It does the job, then is thrown away.

Be sure all volatile and inflammable liquids like solvents, torch fuels, gasoline, etc., are stored in metal cans with non-leaking tops. Such liquids stored, heat, and burst the container. If in glass bottles may expand from a spark or open flame is near by, you may end up with a serious fire.

For a smoother, crisper cut on glass always lubricate the wheel of the glass cutter by dipping it into some kerosene or varnolene before each cut. Use a straight edge to guide the cutter down with moderate pressure, scoring the entire line in one swift stroke.

When pouring liquid such as turpentine or shellac into a glass containing a spirit lamp corner hold the glass so that the opening or spout is at the top when the can is in pouring position. Air will be able to enter freely above the liquid giving a steady, easy-to-control stream.

The easiest way to remove a seal without damaging its surface is to cover it with a wet wash cloth and then press a hot iron over the cloth. Within a few minutes the steam will soften up the old seal, enabling easy removal.—The Herald, Hanna, Alta.

Traffic offenders

There is a growing feeling that anyone convicted of handling a car under the influence of liquor should have his driver's license suspended for a period, which is often done now, and his car impounded, which is rarely done now. If he is caught driving while his license is under suspension, a jail sentence should be made mandatory.—The Advocate, Red Deer, Alta.

SLEEP TO-NITE

You'll find my CHERRY DUMPLINGS easy to make!

Turn out to broad sauceron or electric mixer
1 can cherries, 15 ounces)
cherries and syrup
Add and stir until sugar is dissolved
1/2 cup granulated sugar
1/2 cup water
Cover and bring just to boiling point.

Meantime, sift together into a bowl
1/4 cups once-sifted pastry
or 1 1/2 cups once-sifted all-purpose flour
2 1/2 teaspoons Magic Baking Powder
1/2 teaspoon salt
2 tablespoons granulated sugar
Cut in finely
2 tablespoons chilled shortening
All in
1/2 teaspoon grated orange rind

Make a well in dry ingredients and add
1/2 cup milk
and mix lightly with a fork, adding more milk, if necessary, to make a drop dough. Drop by large spoonfuls over cherries. Cover and simmer 15 minutes, without lifting lid. Serve immediately. Yield: 4 or 5 servings.

Guard against failure—use dependable MAGIC Baking Powder. MAGIC protects all your ingredients, gives you tender baked goods. Buy MAGIC today!

ICEBREAKER—This photo of the icebreaker Ernest Lapointe was taken through the bow hawser of her companion, the d'Alberville, during their present channel clearing job down the St. Lawrence River to open the Port of Montreal.

On The Side: • By • E. V. Durting

What United States naval commander said: "Don't give up the ship?" It was, of course, Capt. James Lawrence, commander of the USS Chesapeake, who uttered those immortal words on June 1, 1813, in a battle with the British ship Shannon off the coast of Massachusetts. Capt. Lawrence's complete order was: "Keep the guns going! Fight her till she strikes or sinks! Don't give up the ship!" These were the gallant commander's dying words. He was 32 years of age at the time.

CRIME DOESN'T PAY

Who was the greatest that you ever heard of? One of the most, I think, was a man who had to have a living for 48 years robbing church poor boxes, following his arrest in Chicago. Said he averaged \$20 a day. In Brooklyn, a man was arrested for stealing candy from a baby. He had snatched a lemon stick from the hand of the child. However, the tops in many crooks was the man in St. Louis who was found to be the cup of a blind man.

SCOTCH IS AGAINST IT

"Scotch and soda" is an English idiom. The Scotch are against it because they claim it injures the whisky. A Scot favors taking his whisky straight with a drap of water following it down. The Irish originated both the kilt and the bagpipes, I note it stated. That's strong. The Romans originated the kilt, while Chinese originated the bagpipes. However, the Irish had both the kilt and the bagpipe before the Scots.

HOUSEWIVES AND HISTORY

How many different types of hair-do does your wife feature? Or have you noticed? According to French history, Mme. Pompadour, originator of the pompadour, had two different ways of managing her hair, compact discs of the most elegant. Her favorite was recently held in England. Careless women were not eligible, only women devoting themselves exclusively to home managing. Among the costumes the competitors donned for the contest were bikini bathing suits.

FOR HEALTH'S SAKE

How are you doing for laughs lately? Have you a friend or relative who frequently inspires you to indulge in hearty laughter? If so, you are greatly indebted to that person. It was the distinguished physician, Dr. Christopher Hufeland, who said: "Of all man's functions that affect the health and welfare together, laughter is the best. Laughter increases respiration, circulation, peristalsis, and the refreshing effect on the strength of all organs. Are you a bathtub singer? If not, you should be, because it, also, is good for one's health. Singing in the bathtub was originated by lawyer Lucius Annaeus Seneca, who was born in 4 BC. In one of his speeches he said: 'A man likes to hear his own voice in the bath.' It is very interesting to note that at a period when the average span of life was 31, Seneca lived to be 69. Men who sing in the shower or bathtub are usually relaxed. And relaxation is a great aid to longevity."

"A TIP" ABOUT TAXI DRIVERS

This department is definitely opposed to tipping taxicab drivers or persons engaged in any other activity. We would like to see those engaged in all activities in which tips are involved paid a living wage. The tips could then be considered a bonus for unusual services. Also to be noted is the angle of competition. A high percentage of taxi accommodations, food service etc., and there is in addition be expected to help the management take care of its payroll by extra payment in the form of tips.

FOR MEN ONLY

Now is the time for all good men to consider how their wives are going to look in bathing suits next summer. It takes just about six months for property to become a plump wife. First thing to do is decrease the intake of fat. No woman can afford to be fat. Then give a thought to the suggestion of baseball's immortal Ty Cobb for weight reduction. That is, have the person being streamlined drink a glass of buttermilk before each meal. That will decrease the appetite. In Brooklyn, a man has a high percentage of success in getting fat. His policy, in case you are a tonosclerosis, is concerned, furnishes all the necessities for customers who wish to shave themselves. Are you in the mail order business? Are you using pink reply envelopes? It is safe to say, most of them are. That famous American five known as "The Harvard Globetrotters," holds the basketball record for having played to the largest attendance. Also the record for the smallest attendance. The largest was 75,000 spectators. The smallest was one. The last named was the Gordon Highlanders, a Canadian regiment. Number one brother in the army at the same time? During World War I there were 11 brothers named Flanagan in the British Army, most of them in the Gordon Highlanders.

Patterns

Blouse wardrobe

4660 SIZES 10-20

Added to your wardrobe with these blouse patterns is a blazer way to wear many smart fashions for spring! Three classic styles, with clever little variations in collars and pockets. Sew them to mix and match with your favorite skirt. Pattern 4660: Misses' Sizes 10, 12, 14, 16, 18, 20. Size 16 upper version, 21 yards 39-inch; middle version, 16 yards 39-inch.

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

To obtain this pattern send thirty-five cents in coin (stamps cannot be accepted) to:

Household Arts Department,
Department P.P.L.

49 Front Street, W., Toronto

Please enclose with mailing your Name, Address, and Part Number.

Let stand 10 minutes; THEN stir well. Stir the lukewarm milk and egg.

1 well-beaten egg

1/2 teaspoon vanilla

into the yeast mixture.

Sift together once.

2 cups once-sifted all-purpose flour

3/4 teaspoon ground

flour

Sift dry ingredients into yeast mixture and stir until well blended—about 1 minute.

4. Spoon mixture into prepared cake pan. Cover. Let rise in a warm place, free from draft, until doubled in bulk, about 1 1/2 hours. Bake in a moderately hot oven, 375°, about 35 minutes. Turn out of pan immediately. Serve warm.

Wanted: hypo for a whale

Science seeks means to preserve mammals' meat from spoilage

By HENRY LESSENE

How fast does a gray whale's heart beat? Dr. Paul Dudley White, President Eisenhower's consulting heart specialist, has been trying to get a reliable program of one, unsuccessfully so far, though he hasn't given up.

Now there's a chance for some inventive genius to come up with the most practical way of getting into a whale—an adult gray whale weighs 40 tons.

It is the antibiotic that is produced by some of the smallest organisms known to man.

The need for such a method arose when the Canadian government recently gave the green light for the first fishery in the dominion's annual \$2 billion fish catch. This is the first time clearance for its use on fish has been given, although the Food and Drug Administration in the United States about a year ago cleared it for use on poultry.

Basic ingredients of the process, known as Acronize and developed by the United States food technologists, is aureomycin chlortetracycline. By halting bacterial growth, the antibiotic does the same thing principle, as does refrigeration and when the two are used together, the result is not only fresher poultry or fish but poultry or fish which stays fresh longer.

The process cleared for fish involved addition of about 4.5 grams of Acronize to the freezing cans (along with the necessary water) to make a 300-pound cake of ice. Cooking destroys any assayable trace of antibiotic.

The whale poses a special challenge to scientists and researchers. Whale meat, on the North American continent, is used almost entirely in animal feeds. Even so, however, most of the whale meat is a loss.

Whale meat is a warm-blooded mammal—and, in fact, like all mammals, originated on land—and is of great size. The chilling rates are so slow much of the carcass is an economic loss by the time it can be towed to the processing factory.

Whale meat is a beautiful, whale poses a special challenge to scientists and researchers. Whale meat, on the North American continent, is used almost entirely in animal feeds. Even so, however, most of the whale meat is a loss.

Whale meat is a

method of getting 50 grams of aureomycin chlortetracycline pumped into the carcass of whales along with the air that infuses the body muscles prior to freezing.

Subsequently, there have been contemplating a practical way in which the antibiotic might be inserted in, or at least near, the bomb head of the harpoon. This would get it into the mammal after it is dead.

Contrary to much popular assumption, most of a whale's body is one giant muscle. Studies have been made of the whale's pituitary gland to try to learn how and why the mammal grows so large and so fast. The whale's front flippers, used for steering, are vestiges of feet.

The blue whale, mightiest of them all, grows to over 100 feet in length and can weigh up to 150 tons, possibly more. By comparison, the prehistoric dinosaur weighed a puny 50 tons.

Dental college plans tabled in Legislature

Plans for a \$1,350,000 dental college that would graduate 30 dentists and 15 dental hygienists yearly with an annual operating cost of \$246,250 were contained in a report tabled last week (January 31) by the Minister of Education, Hon. W. C. Miller.

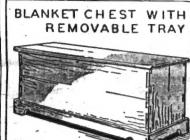

The report by Dr. K. J. Paynter of the University of Toronto who was appointed by the Manitoba Government to study the dental situation in the province, also recommended that post-graduate studies be offered at the dental college. At present there is no dental college between Toronto and Edmonton.—The Carlton News, Steinbach, Man.—Feb. 8, 1957.

A Break in the News

Fashions

Week's sew-thrift

14½-24½

by Anna Adams

SEW-EASY! Look at the diagram—you can whip this up in jiffy time! Proportioned to fit the shorter, fuller figure—no alterations required. It's a simple 'round-the-house dress; or summer sundress! No frills to fuss over—landers in a wink, looks so pretty!

Pattern: Consumer price indexes were higher at February than at January for eight of the 10 cities and lower for two. The increases ranged from 0.2 percent to 0.7 percent, while the decreases were only 0.1 percent.

Lumber: Sawn lumber output during 1956 was slightly higher east of the Rockies than in 1955 at 3,134,023,000 board feet, but in British Columbia it was cut off by 23 percent and ties were down 23.3 percent at 4,616,752,000 board feet.

Housing: House building in January continued the trend of the closing months of 1956 with a sharply lower number of units started than a like month completed than in January last year.

Merchandising: Chain store sales in January were \$1,200,000, up 16½, 18½, 20½, 22½, 24½. Size 16½ takes 33 yards 35-inch.

This pattern easy to make, simple to sew. It's a cinch! Follow complete illustrated instructions.

Send forty cents (40c) in coin (stamps cannot be accepted) for this pattern. Write plainly: Name, Address and Style Number, and send orders to:

Disenfranchising
the farmers

Press despatches from Ottawa state that Prime Minister St. Laurent was "non-committal" on most of the demands contained in the annual submission of the Canadian Labor Congress and openly opposed to others.

In the light of the proposals put forward by the Canadian Labor Congress, the Prime Minister's cool reception of the CLC submission is not surprising.

Among the proposals made by the Canadian Labor Congress was that several thousand rural members should be redistributed to give greater representation to urban and industrial areas and to reduce the representation of rural areas.

This scheme can be regarded as nothing less than a bold move on the part of the CLC Labor to disenfranchise the farmers.

Tactics such as this will win no friends for the Canadian Labor Congress in the Prairie Provinces.

Forward progress

(From The Leader, St. James, Man.—Jan. 24, 1957)

The proposal of St. James city council to, at long last, set aside a city block as a site for a future municipal hospital is a measure long advocated by this newspaper. With hospital costs skyrocketing the way they are, and with the various grants in aid established by the senior governments per hospital bed and towards capital building costs, the day is not too far distant when St. James will require to consider the erection of its own hospital as a matter of economy.

Present hospital costs to the city are said to be in the neighborhood of \$12,000 per year. These are the result of the policy of the existing hospitals in demanding that the municipal corporations, wherever they are, are responsible for the hospital bills of their citizens. A wise policy on the part of the hospitals, no doubt, but an expensive one for the municipal corporations affected. If it were a matter of economy, a municipally-owned hospital must become necessary if, and when, the hospital situation in Winnipeg or St. Boniface should enforce a policy of looking after their own citizens first. It is not unlikely that St. James may be requested to construct its own hospital, not for reasons of economy, but in the public interest.

The proposed public library building to which the St. James council has given the nod for immediate construction, is a vital public need in which not only St. James but the municipalities contiguous to St. James should show more than a passing interest, in keeping with the proposals to plan for future hospital accommodation.

The point has been made that the St. James Public Library building, when it shall have become a reality, as it now bids fair to become, will be the first such building specifically constructed for the purpose within the history of Manitoba. This being the case, none of the existing library buildings in Manitoba having been designed and constructed for that specific purpose, it behoves the St. James Library Board, and particularly the city council, to look well into the details. The library may be built with a good deal of literary material which can be available for maintenance purposes. Particularly the capital sums available for libraries built to serve more than one municipal area, should be investigated with a view to collaboration with our neighboring municipalities.

The amazing fact conveyed to the council that the subscription list to the newly established library is now over 3,000 and of which 2,000 are children points up the great need for this type of service within our district. The St. James Lion's Club indeed "built better than they knew" when they fostered this great public service.

Make saved lives worth living

(From The Sun, Grenfell, Sask.—Jan. 30, 1957)

The Salk vaccine can't undo what polio has done to our fellow humans who live in iron lungs. Have you ever wondered what those people think about now that a way to prevent polio paralysis has been found—too late for them?

If you couldn't breathe without an electric motor and air bellows; if you had to lie motionless for weeks, maybe months or years on end; if you knew you could never use your arms or legs and if this had happened to you suddenly—even while others are being protected from it—how would you feel?

You would be glad of course, to know that future generations are to be spared your own ordeal. But your hopes would go beyond that—as do thousands of polio patients today.

Why are they hopeful? Because the March of Dimes is aiding them to the very limit of its ability to do so—providing services such as—treatment through mobile rehabilitation and mobile treatment clinics in eleven points in Saskatchewan; transportation to and from treatment and rehabilitation centers through the ambulance and driver employment of its specially-designed buses; bracing; special appliances; vocational rehabilitation through two special centres for the adult handicapped—the Vocational Rehabilitation Centre in Saskatoon and the Disabled Civilians' Workshop in Moose Jaw.

What lies ahead for these polio handicapped citizens? Only you, the public, can answer that question through your generous support of the March of Dimes Campaign.

Make their saved lives worth living—they are willing—*are you?*

Over thirty loyal and true...

(From The Record, Rimbey, Alberta—Jan. 3, 1957)

We cannot enter the new year without giving due credit to a group of loyal persons who have spent many hours during the past year gathering news items in their various communities.

Numbering over thirty in all, the group of correspondents who forward news to The Record each week contribute a great deal to the activity and progress of the districts in west-central Alberta.

Each news bulletin forwarded by rural correspondents represents a good deal of time spent on the telephone and in visiting. It is not a small job, and it is much appreciated by the readers and the editors of The Record.

Only with the continuing loyal assistance of the rural correspondents can any community newspaper fulfill its function as a reporter of the activities in its area of coverage.

To our correspondents we say a great big "Thank You".

By the way...

(From Dauphin, Man.—Jan. 17, 1957)

When a copy of the special "Campbell Soup" issue of Portage la Prairie's Daily Graphic came to our desk a fortnight ago, we had to admit a bit of envy for the good fortune of that community in clicking on a big-industry bid—and a hope that the Dauphin Herald will some day soon be able to return the favor of a special issue to commence a new industrial development here.

In congratulating the people of Portage on being chosen for the location of the gigantic five-million-dollar plant which will be started this spring, we readily realize that the specialized agricultural production tied in with this industry will be an economic boom to Manitoba as a whole. But pray tell, is there a clue to the secret of success in the name of a constituency's M.L.A.? . . . if so, Dauphin's chances for a meat-processing industry should be better than good! (And we understand the Campbell Soup company's operations make it one of the largest purchasers of Canadian grain and beef for processing. Maybe the opening up of our north country will some day rate company expansion in this direction.)

It will be recalled that our town council did make a point of informing this company, as soon as its plans for locating in Manitoba were known, that the Dauphin area has excellent soil for vegetable production. However, there were apparently many other factors to be considered—one of them no doubt being proximity to the news trans-Canada highway communication.

For the nonce, our industrial hopes will have to be pinned on attracting one or more of the manufacturing concerns which are now paying closer attention to Manitoba as its economic prospects take on the brightest look in its history. Either that, or take a tip from the success story of Brooks, Alberta . . . and go into the business of raising some rare pheasant that will put this area even more on the map as a mecca for hunters and tourists!

In all seriousness, however, it is only fair to note that our local council has been instrumental in bringing with it much interest of the need for industrial development in Dauphin. We know that in the past year they have worked hard to follow up any lead that might result in the location of new manufacturing plants here. Our council has long indicated that it is more than willing to encourage, in practical fashion, the establishment of new industries in Dauphin.

The importance of continuing these efforts was emphasized by Mr. Molson in his address at the first council meeting of this year. His remarks on the subject of industrial development are well worth repeating: "There are certain very real difficulties in the way of attracting industry to Dauphin, but with planning and a concerted effort some of these can be overcome. I believe we should concentrate on those industries which produce products produced in this area. I wish to point out, however, that we must be alive to this matter because it is the only means by which we can keep the economy of the town and district balanced and provide for growth and employment opportunities for our people."

"At an early date I propose calling a conference of the Dauphin chamber of commerce, the council and representatives of the provincial department of trade and commerce when we can discuss ways and means of encouraging the establishment of industrial plants in Dauphin."

It is first and foremost we hope it is the corner-stone of a development which will be cause for Dauphin to join Portage la Prairie in celebrating the new era of industrial progress in Manitoba.

Key man

(From The Times, Kamsack, Sask.)

The life of a minister of finance is not a happy one.

He is the one man who has to stand between the taxpayers and the numberless forces that are constantly pressing for more and more of their money. All other departments of government have projects of their own which require large government spending, and their ministers are interested in getting as much money as possible for those projects.

Every member of parliament is under constant pressure from his own constituents for expenditures that they are convinced would benefit their part of the country.

Provincial and municipal governments, educational institutions and countless other organizations are forever making demands for more and more government assistance; and the people who are located in distant government extravagance are also the loudest in demanding more and bigger grants from the national treasury.

If all the demands for assistance from the federal government were granted the demands themselves would increase and multiply till all the earnings of all the people in the country would not be sufficient to pay them. The only way they could be paid would be by a reckless inflation of the currency. And the man we depend on to save us from that fate is the minister of finance.

He must be the strongest man in the government. He must know when to say no, and he must have the tenacity to stick to it. He can't do this unless the people support him.

If the people of Canada really want to hold the constant increase in taxation and to check the threatened inflation of the currency, they should encourage the minister of finance to resist every unnecessary expenditure, and they should vigorously oppose the present efforts in so many places to load the financial burdens of other governments and other institutions on to the Dominion government.—The Rural Scene.

"you can't beat experience"

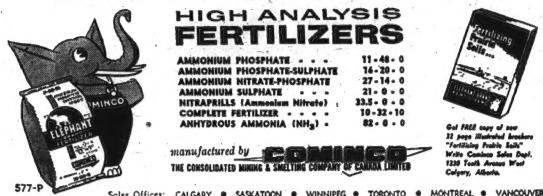

For 26 years Cominco has been supplying Prairie farmers with fertilizers developed and manufactured in Canada to meet the needs of Prairie crops. You can't beat experience... and more than a quarter of a century of fertilizing experience stands behind every bag of Elephant Brand.

A continuing Research program at Cominco has kept pace with changing needs and new fertilizing techniques. New products—better Elephant Brand fertilizers for every crop and soil are constantly being developed. And the effectiveness of every fertilizer in the Elephant Brand line has been proven by thousands of field tests and demonstrations.

For help with your fertilizer problems and to ensure you have the right fertilizer for your needs, see your Elephant Brand agent. Use his years of fertilizing experience as well as the experience of the Elephant Brand district supervisor, a trained agriculturist. Make sure you get the first and finest fertilizers—and the best experience—in Western Canada!

NOTICE TO ALBERTA CITIZENS

DEDICATION WEEK ARRANGEMENTS ALBERTA JUBILEE AUDITORIUMS EDMONTON — CALGARY

OFFICIAL OPENING - Sunday, April 28th

The Alberta Jubilee Auditoriums in Edmonton and Calgary will be officially opened on Sunday, April 28th. Dedication ceremonies and a special program have been arranged. Tickets for Sunday only will be distributed free of charge proportionately throughout the Province.

SUNDAY TICKETS - Free of Charge

Alberta citizens desiring tickets for the Sunday program in either the Southern Alberta Jubilee Auditorium in Calgary or the Northern Alberta Jubilee Auditorium in Edmonton should write to:

SUNDAY TICKETS.

PUBLIC RELATIONS OFFICER,

LEGISLATIVE BUILDING,

EDMONTON, ALBERTA.

Include in your letter your name and address, printed clearly in order to facilitate mailing. NO TELEPHONE CALLS WILL BE ACCEPTED.

The allotment provides for 2,300 tickets to be distributed throughout Northern Alberta and 2,300 tickets in Southern Alberta.

This allocation is necessary in order to effect a fair distribution of free tickets for Sunday, April 28th. (Tickets for all other days in the week-long program are to be sold through Calgary and Edmonton ticket offices. Details later.)

DEDICATION WEEK - April 28th - May 4th

Each Auditorium will be dedicated and officially opened on Sunday, April 28th.

Commencing Monday, April 29th, special programs have been arranged for every evening as well as some matinee performances.

Local artists will perform in all presentations and Guest Stars from Hollywood, New York and Eastern Canada will appear throughout the week in both Calgary and Edmonton.

Details of the entire program will be published later in this paper.

AUDITORIUM MANAGEMENT COMMITTEE
DEPARTMENT OF ECONOMIC AFFAIRS

GOVERNMENT OF ALBERTA

Echoes From The Legislative Halls

By Ken Mason

EDMONTON—Alberta motorists will be buying more car insurance in 1958 if the legislature passes a bill introduced last week and there is little doubt about it being passed.

The bill would double the minimum amount of insurance required for proof of financial responsibility under Alberta's pink card system.

According to the bill, the new minimum amounts would be \$2,000 coverage for property damage; \$10,000 for one person injured and \$20,000 for two or more persons injured. Under the present act, the minimum amounts are \$1,000 and \$5,000.

Hon. Gordon Taylor, minister of highways, said the new minimums won't come into force until July 1, 1958, because there are thousands of insurance policies in existence which would be inadequate if the bill was effective immediately.

The pink card system was introduced originally as a compulsory measure between compulsory car insurance and nothing at all. There is nothing compulsory about the program, but if a motorist is involved in an accident and hasn't a pink card to prove financial responsibility, his car is impounded.

The case of the irregularities and falsified records in the office of the Queen's Printer came back to haunt the government last week.

During study of the treasury department estimates by committee of the whole, Liberal Hugh John MacDonald, Calgary, introduced a motion of censure over the handling of the case.

They criticized the government's handling of the Queen's Printer Abe Shnitka, for paying his salary during a 21-day suspension, and for allowing him to retire on pension after an investigation by the provincial auditor turned up the irregularities.

The motion of censure was defeated after Premier Manning and Provincial Treasurer E. W. Hinman pointed out that the falsification of records was not designed for personal gain, but only to show that the Queen's Printer Office operated at a profit when in fact it did not. The whole affair involved a loss of around \$1,000 over many years.

Mr. MacDonald described Mr. Shnitka's actions as "just plain crookedness." He pointed out that not only had Shnitka falsified records, but had forced his staff to do the same thing, had threatened to fire any employee who disclosed what was going on.

The premier argued that Shnitka was being retained only until a successor is trained. He said the printer has handled his resignation two years before he received his pension and that reason will lose some of his pension. The feeling of the government was that the man has already been punished sufficiently.

The Queen's Printer was in the limelight again when a government tabled a report of a survey by a group of engineering consultants. It found the government could save \$89,000 a year by more efficient operation of the Queen's Printer branch.

The House last week completed its final grind through the departmental estimates which make up the \$285,000,000 budget for the coming fiscal year.

It took two weeks to do it, with Opposition members repeatedly criticizing and asking questions.

A question which got a swish like it might throw the government for a loss came from Alfred Mackay, Liberal member for Redwater.

During study of welfare department estimates, he asked if the government's proposed dividend and royalty division might penalize persons who receive certain provincial pensions, by raising their incomes over the maximum allowable.

Welfare Minister R. D. Jorgenson, who appeared to be off guard, said he believed they would. Some Opposition members took this up and said that if the principle of the dividends was bad before, this made it doubly bad.

Premier Manning came to the rescue and said whatever measure was taken to correct it would be done.

Staid parliamentary proceedings broke down into a shouting match once during study of the estimates, with members crying

Viking Boy Makes Good as Minister In British Columbia Cabinet

Under the caption "Premier Proud of Young Mr. Peterson," in an article in the Victoria, B.C., Daily Colonist recently, the following appeared in regard to Hon. Leslie R. Peterson, minister of Education in the B.C. Social Credit government.

"VICTORIA—It is astonishing how quickly a new cabinet minister masters his department."

Even more amazing is the fact that Leslie Peterson is a lawyer; last September he was made minister of education.

In six months he has, to a very great extent, learned the intricacies of this vast, complicated and controversial department.

He showed this when he put

his estimates through the House

his estimates through the House

He has very great responsibility, this young man, only 33.

With the expenditure of more than \$46,000,000 of public money.

The premier is very proud of Mr. Peterson and shows it, beaming upon him whenever he speaks.

The premier is mighty proud of his whole cabinet, as a father is proud of his successful sons.

This is natural enough since cabinet ministers are handpicked by the premier, and if they should disgrace themselves, they also disgrace the premier."

Why Go
to
CHURCH?

A stranger passing a large mine in Pennsylvania asked a little boy why the field was full of mules. "These mules are working in the mine during the week," replied the boy, "and are set free up into the light on Sunday to keep them from going blind."

Do you "come up" on Sunday—up from the worries, the struggles, and the confusion of the week to let the light of God's Word shine into your heart? Or do you spend your Sunday "down" in the world, doing what you please Saturday night, Monday morning, Tuesday day?

After a week of failure and fumbling and sinning, there is no experience more glorious than the divine assurance of God's minister: "Be of good cheer, thy sins be forgiven thee." Matt. 9:2.

After a week of trial, worry, and disappointment, there is never leave lift than the promise from the lips of God: "I will never leave thee nor forsake thee." Heb. 13:5.

After a week of stumbling and groping there is nothing more reassuring than an hour spent in the company of Him who said: "I am the Light of the world. He that followeth Me shall not walk in darkness, but shall have the light of life." John 3:12.

Sunday has no sorrow which Sunday cannot heal—if Sunday is a day of worship, prayer, and praise.

We've answered your question, "Why Go To Church?" Now we ask, "Why Not Go To Church?" How about next Sunday?

AUCTION SALE

FOR EMIL BILLACK

CHESTER GAMBLE, Auctioneer

Lic. No. 22, Mannville, Alberta.

Selmer Hafso, K. Hilliker, Clerks

"sit down" and "shut up" as the chairman tried to restore order.

It started when J. Harper Prowse, Opposition leader, accused the government of using public money to distribute "pro-pension" leaflets. He referred to the inserts inserted similarly in daily and weekly papers, and to the published summary of findings by the royal commission which investigated election campaign charges.

The shouting started when several members tried to have the floor at once, and when the motion died down the House approved an item of \$100,000 for advertising.

Staid parliamentary proceedings

SEEDTIME and HARVEST

By F. J. Greenway,
District Supervisor,
Lisa Elevator Farm Service.

Sponsored by the following companies:
Federal, Pioneer, Alberta Pacific, Canadian
Consolidated, Peterman, McCabe, Purcell &
Cooper, Coon, Dillon Milling
and Quaker Oats.

WHY SEED TREATMENT?

The first and foremost reason why even grain grower in Western Canada should practice seed treatment can be stated in three words: "Protection Against Disease."

Disease Carriers. Seeds are disease carriers. The germs responsible for the surface-borne smuts of cereals, and the seedling blights and seed rots, originate in the soil. These diseases can be easily, effectively and cheaply controlled by applying a suitable chemical to the surface of the seed. Proper seed treatment protects the seed against certain destructive soil-borne diseases.

Recommended Treatments. Chemical compounds containing boron are generally recognized as the best treatments for smut and for seedling blights and seed rots. Such chemicals as Agrox C, Ceresan, Leytonax and Panogen are recommended. Formaldehyde and Copper Sulphate are not recommended for seed-treatment purposes as they are injurious to the seed in the soil. Approved dual purpose seed treatments (Aldmer, Mergamite C and others) should be used when wireworms as well as smut and other diseases are to be controlled.

How and When to Treat. Before treatment seed should be thoroughly cleaned. No matter what chemical is used, nor by what method it is applied, the seed must be adequately coated with the chemical. Treat wheat and barley at least 24 hours before sowing, and oats and barley at least 48 hours before planting. Read and follow directions on the label directions and precautions of the manufacturer. Seed treatment chemicals are poisonous. Handle with caution. Do not feed treated grain to livestock. A warning for 1957. Heavy treatments are attached to the delivery elevator.

Seed treatment is safe and certain protection for your seed. It is the most inexpensive form of crop insurance you can buy. Call your local elevator Agent for a copy of our handy "Seed Treatment Chart."

Neither mining nor lumbering is carried on commercially in the province of Prince Edward Island.

Advertising Stimulates Trade

Under the Canadian constitution Lake Superior, world's largest provincial and federal body of fresh water, is one legislature must meet at least once a quarter in Canada, three-quarters a year.

**Viking Legion
Represent Alta.
In Dominion
Curling Finals**

Pictured here is the Legion rink that brought curling honors to Viking and districts by winning the Legion Zone 10 competition held at Camrose and represented Alberta in the dominion finals held in Winnipeg starting Mar. 8. Nine provinces were represented in the finals. The Viking rink won four games and lost three games played under Macmillan rules that allowed only four players to compose a rink.

The new dominion champions from Kamloops, represented B.C. They won 6 and lost 2. The 1958 dominion finals will be held at Sudbury, Ont., and we are quite sure our local Legion will again enter a rink in 1958 and will be worthy contenders for further honors.

Standing left to right are Leo Kelly and Vince Slavik, sealed axe Orlando Hafso, S. Liver Hafso and Bill Stalker.

New farm business group first of its kind in Canada

A new organization formed at Carman Saturday will be the first of its kind in Canada. The new group, which will be known as the Carman District Farm Business Association, will have among its aims more efficient farm management.

It was agreed that charter members in the first year of operation would be restricted to 75, and that total membership at any time should not exceed 100. Of those present at the meeting 53 were enrolled. The committee previously set up to promote formation of the association was asked to carry on until the required number have been signed up.

Dr. J. C. Gilson, professor of agricultural economics and farm management at the University of Manitoba, was on hand to assist in final plans in the formation of the group. He stressed the increasing attention which farmers are devoting to the business side of their operations. He referred to the 1941 and 1951 census statistics to point out the enormous growth in value of farm buildings in 10 years. In 1951 average total farm investments in the municipalities of Dufferin, Grey, Thomp-

ton and Roland were \$21,272, \$22,472, \$23,995 and \$28,775 respectively. This was an increase from the corresponding figures of \$11,545 in 1941. Part of these increases, he said, are due to higher values, but a large part is due to increased physical size of the farm business. The number of farms since 1941 was reduced by 204 or 11 per cent.

As the farm business became larger and more highly capitalized, farmers became increasingly conscious of the need of specialized assistance in such fields as farm accounting, financial planning, farm equipment purchases, farm insurance, use of credit etc. Dr. Gilson emphasized that this assistance is possible only through a great deal of individual attention, and by careful and competent analysis of farm accounts.

The new organization will provide a farm management specialist to work with members of the association. He would be located at the university and full co-operation by the department of farm management would be available through him.

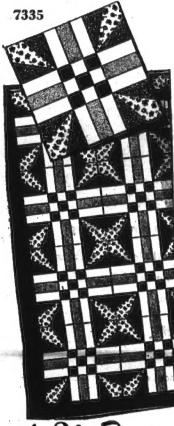

Where advisable, help would be obtained from other agencies and departments. Assistance would be given in setting up adequate account books. These would be analyzed at the university and an attempt made to determine what changes could improve the farm income.

The speaker pointed to the attitude of the farmer that his farm business is private information. He impressed his listeners the fact that information is kept strictly confidential. Any use of data is on a group basis only. The plan would entail some expense but members are assessed only a small portion. The major part will be borne by the university and no help, conceived that the plan has merit, that it will materially benefit this in it and others as well.—The Dufferin Leader, Carman, Man.—Feb. 21, 1957.

Patterns

Gay scrap quilt

7335

by Alice Brooks

Beauty of a quilt—all gay, bold colors in a most effective design. Easy to piece — it's just four patches. Easy, even if you have never made a quilt before!

Pattern 7335—Child's quilt, patchwork, matching Marguerite for single and double-bed quilt.

To obtain this pattern send thirty-five cents in coins (stamps cannot be accepted) to:

**Household Arts Department,
Department P.P.L.,**

Immigration—Key to Canadian growth

Immigration is certain to be an important determinant of Canadian growth and prosperity over the next 20 years.

This is the considered view of the Royal Commission on Canada's Economic Prospects. "Immigrants," the Commission states in its preliminary report, "have made a major contribution to the rate of economic development in Canada. This is true in aggregate terms because of the addition that immigrants have made to the available labor supply. It is equally true in qualitative terms when we consider the relative mobility of immigrants and their willingness to accept the types of work that are less attractive, but also when one thinks of the various skills and cultural accomplishments with which many immigrants are helping to enrich our Canadian life." The Commission held that it is Canada's interest to continue to encourage people from other countries to emigrate here in order both to assist and participate in the development of our country and to contribute further variety to our social organization and institutions."

The Government at Ottawa should not hesitate to support both by word and action the Gordon Commission's recommendations on immigration, particularly its recommendation that immigration policy, instead of being piecemeal in the past, should be continuous and long-term.

Aurora thinking about centennial already; it's six years from now

The approach of Aurora's centennial will not find the town unprepared if Mayor James Murray's suggestion is followed. At Monday's meeting he pointed out that the centennial was about six years away.

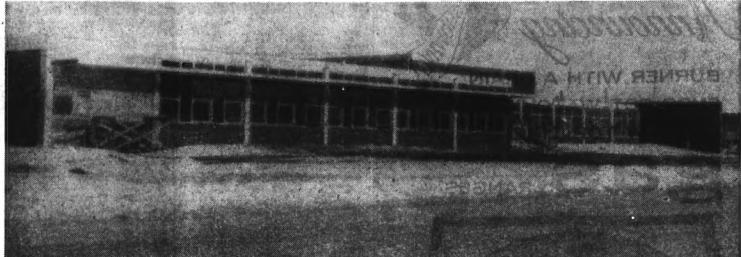

"You can't make plans in a few months," he said. "We should be giving this matter some thought right now."

The mayor suggested that council appoint a committee to study the problem, work out and give some thought as to what was to be done.—The Era and Express, Newmarket, Ont.—Jan. 24, 1957.

GEM OF THOUGHT
Let it be impressed upon your minds, let it be instilled into your children, that the liberty of the press is the palladium of all the civil, political, and religious rights.

The leaves of the banana tree are 10 feet long.

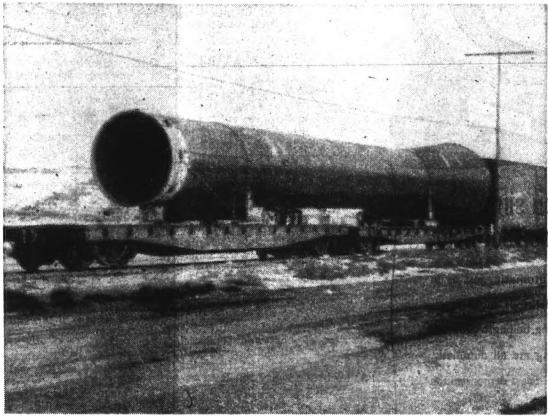

(The Herald-Tribune, Grande Prairie, Alta.—Feb. 15, 1957)

SCHOOL MOVES NEARER COMPLETION—New public school in northwest corner of town gradually gains finished look as workmen take advantage of mild weather to press toward completion of job.

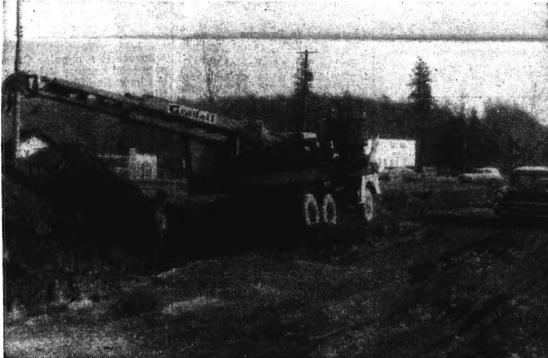

Located next to new county school—named for former superintendent Harry Balfour—new school is expected to complete for beginning of fall term.

(The Herald-Tribune, Grande Prairie, Alta.—Feb. 15, 1957)

KING-SIZED SMOKESTACK PASSES THROUGH HERE—A marker of the industry that is sprouting in the Peace, this giant stack with bell-like snout will soon be reaching skywards at Taylor. It is one of several huge pieces of plant equipment moving through Dawson Creek this week. The 16-ton stack was carried on two flatcars. A larger metal tower which moved in earlier in the week occupied three flatcars.

(The Surrey Leader, Cloverdale, B.C.—Feb. 21, 1957)

KING GEORGE HIGHWAY—No, that's not a new highway being built to Finlay Forks. That is King George Highway which has been in business for 20 years as the main arterial to the States. The photo, taken by Jack Berry on Sunday afternoon, shows the completion of the roadway which has been completed by sections. The volume of truck traffic which ordinarily flows over this highway completed the job. The huge volume of truck traffic which ordinarily flows over this highway has been rerouted via Pacific Highway to the Trans-Canada at Fry's Corner. With the sunny day there was a tremendous number of cars on the roads on Sunday. Combined with highway conditions, this saw southbound vehicles on King George slowed to a creep as far back as the New McLellan intersection.

Canada to observe National Wild Life Week April 7-13

National Wild Life Week was on the Conservation of Canada's Natural Resources by Special Act of Parliament in 1947. It is much different than any other special week because no one is asked to buy anything and the public is on the receiving end. Not only this generation but generations to come.

It is not a week to stimulate interest to buy some shelfware, but a week to stimulate interest when everyone is asked to turn their minds and attention to the conservation of not only our Wild Life but our Natural Resources so that future generations won't have to go to a Museum to see a rare or extinct animal.

The week of April 10th was chosen because it was the birthday of the late Jack Miner, Canadian Naturalist who gave his life and all his personal income for the protection of birds.

April 10th was so appropriate because it was the season of the year the bird life was returning to Canada to nest.

All preachers have been asked to observe Sunday, April 7th, National Wild Life Week in their Churches and preach on God's great outdoors while all service clubs have been asked to provide special speakers during the week to speak

of Everlast (.

BEAUTY AND THE BEAST—That large striped animal resting on the sofa is a tiger from the Ussuri region of Siberia, where the largest of these giant cats are found. Its owner, Russian tiger tamer Margarita Naiman, strokes the animal while talking to Soviet actress Olga Bochova in a Moscow hotel. The woman bought the tiger from a cub and they appeared together in a movie which was successful in Russia and abroad. The photograph and caption are from an official Soviet source.

IN THE HOME WORKSHOP

BY RUTH SPARKS

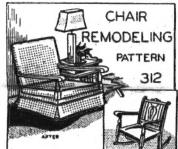

Trellises may be used in various ways to add charm to the exterior. The above sketch is an example. Across the end of a porch to give privacy or to soften the corner of a garage a door or window are other uses. The pattern shows views of four styles of trellises and three designs for flower boxes.

boxes. As tracing patterns required only for the unshaded parts space has been found on the pattern for directions to make the door-side seats and an interesting gate. The ends of the door-side seats are decorated with a stylized floral motif. The pattern is rich in detail for the 'do-it-yourself' builder. Price of pattern 314 is 35¢.

Remodelled chair

A remodelled chair may start a new and useful life. Here is an old rocker that has been completely

transformed. Pattern 312, which shows every detail in making over many types of chairs and gives illustrated directions for repairing springs and for doing simple upholstery, will be mailed for 35¢. Address order to:

Sneezes into hospital

Apparently there are two kinds of sneezes—the kind you can get away with, and the kind that get away with you. As proof, we offer the following incidents as reported by our correspondent at Vancouver.

"Arnold Erickson is a patient in the Shaughnessy hospital, suffering pain of torn ligaments in his back. Mr. Erickson injured himself when he sneezed on the way to work Wednesday morning."—The Sun, Swift Current, Sask.—March 13, 1957.

Grenfell druggist receives honour certificate

In recognition of outstanding and exemplary service to further the advancement of pharmacy who is a member of the profession, Mr. G. E. Mayo has received a certificate of honour from the Canadian Pharmaceutical Association.

J. C. Turnbull, secretary manager of the association, in his cover letter, says: "Your devotion to the profession and your contributions by your interest and active participation in the affairs of our local, provincial and national associations is sincerely appreciated." — The Grenfell Sun.

Alcohol education gratifying

Public response to Manitoba's alcohol education program has been very encouraging, wrote

Professor Halstead, chairman of the Manitoba Committee on Alcohol Education, which is breaking new ground in the adult field, said there were many indications that the public was becoming realistic and receptive upon the committee's advertising and publicity program, begun last September. — Carillon News, Steinbach, Man.—Feb. 15, 1957.

Fashions

Needle favorite

7307

by Alice Brooks

Swedish weaving—a handicraft favorite—it's so easy, fascinating to learn! You can make designs in this patterned color to pillows, aprons, towels, baby bibs!

Pattern 7307. Charts, directions for 2 baby mottos; 5 borders that can be used in variety of widths.

Send forty cents (40c) in coins to Alice Brooks, Dept. 100, 1000 Main Street, Winnipeg, Man., to receive this pattern. Write plainly Size, Name, Address and Style Number and send orders to:

Anne Adams Pattern Dept., Department P.P.L., 60 Front Street, W., Toronto

Two FREE Patterns—printed in our ALICE BROOKS Needlefabric book—stunning designs for your home and for your readers. Dozens of other designs to order—all easy, fascinating hand-work! Send 25 cents for your copy of this wonderful book right away!

Now Many Wear

FALSE TEETH

With More Comfort

FASHTERL, a pleasant alkaline (non-add) powder, holds false teeth more firmly. It is safe to take in the mouth, does not irritate little FAIR TEETH on your plates. No gumy, sticky taste. Helps to prevent "plaster odor" (dental breath). Get FASHTERL at any drug counter.

Quick, Easy Way to Shrink Painful Piles

Here is a nice, clean, easy way to get rid of piles. It is a quick, painless, swell, painful piles without the inconvenience of ointments, pile pipes or suppositories.

The secret is in taking just one small tablet of MAZOLA Salad Oil every three times a day. After taking effect, it relieves pain, stops bleeding, reduces constipation, relieves itching, sores and pain. Helps shrink piles without permitting them to heal.

Why suffer needlessly? Get a prescription. For your how low item. Item is to be taken three times a day. It will give you more comfort it will quickly bring you relief. It is a quick, painless, swell, painful piles if you are not 100% pleased.

Editorials

(These are not necessarily the views of the editor of this paper.)

A new bonanza

(The Progress, Winkler, Man.—Jan. 9, 1957)

Canada's new uranium industry looms as a high-ranking enterprise among the country's great mining projects.

The fact that this industry will employ some 12,000 persons with an annual payroll estimated at \$60,000,000 may surprise Canadians. Our uranium resources have been a military secret since uranium materials became important to atomic energy work following the Second World War.

Note that Canada's vast uranium reserves have been made public, there are indications that the uranium mining industry eventually will stand second only to gold mining, which in 1955 employed some 18,032 persons with a \$63,961,744 payroll.

This year, Canada is expected to produce its first uranium metal, from the crown-owned Eldorado Mining and Refining Ltd. plant at Port Hope, Ont.

So far, uranium mining has been concentrated in northern areas of Ontario and Saskatchewan and the Northern Territories. But Canada's uranium reserves have hardly touched.

The reserves are estimated at 225,000,000 tons. The uranium content of this ore is some 237,000 tons, which means Canada has enough uranium to meet domestic requirements for the next two decades.

Individuals urged to use labor pool now...

(The News, Maple Creek, Sask.—Jan. 31, 1957)

Large and small commercial establishments planning renovations or repairs to their offices, plants or stores in the near future can help the unemployment situation by doing them now.

Many firms in the past have begun alterations in the spring or summer when the demand for tradesmen and building materials is greatest—causing delay, inconvenience and added expense.

If firm remains, alterations would start them now during the winter months, many otherwise unemployed workers would be assured of a job and the firms would be helping greatly to fight and counteract the annual hazard of winter unemployment.

Individuals can help too by making any repairs and renovations to their homes immediately instead of waiting until the Spring. Housewives can assist by hiring domestic help to aid with heavy chores.

An all-out attack on this problem would result in a considerable reduction in winter unemployment.

Speak softly, but carry a big stick...

(The Mail, Drumheller, Alta.—Jan. 30, 1957)

Man can be happy that good will has spread as much as it has in the world, but it isn't difficult to be somewhat gloomy about man's yester-years that produced the international passions and devastating weapons which loom threateningly.

However dark a picture is drawn, there is the reassuring knowledge that the human race has survived all previous eras of darkness and gloom and emerged into successive periods of enlightenment. That is because there is enough capacity for good deeds in the race to face any situation.

Soviet's food production plans

Between 1955 and 1960 the USSR proposes to increase production of meat by 100 percent, of milk by 95 percent, eggs by 154 percent and wool by 82 percent, states a report from the Food and Agriculture Organization of the United Nations at Rome.

The Soviet government says FAO, plans to bring about this increased production through massive changes in agricultural planning, increased mechanization and greater state investment in agriculture. More authority will be given the federal republics and local administrations. State investment in agriculture will be increased from 13.5 billion rubles per year in 1955 to 22 billion rubles in 1960—24 million rubles per year. During the fifth five-year plan, 1956-60, the increase to be earmarked exclusively for the State's machine and tractor stations, the State farms (all distinct from collective farms) and for produce-collecting services.

The USSR says it is to increase to 22,000 million annually in 1960 from 162,500 in 1955; lamb to 140,000 from 49,000; windrows to 50,000 from 2,500 and other agricultural machinery by 62 percent. In addition over the five-year period 250,000 corn pickers are to be made available.

The FAO review says the cultivated areas in the Soviet Union increased between 1955 and 1956 by about 10 million hectares (25 million acres) with about 20 million hectares sown to grain for livestock.

Surveying the history of Soviet agriculture since the FAO committee on agriculture had reached a similar level for some branches by 1945, even passing those levels for grain and cattle, but the quota for the fourth five-year plan could not be met in 1960. In 1952, a year in which weather was unusually favorable for agriculture, production was only 10 percent higher than in 1950. Industrial expansion, however, had taken the same toll.

Soviet stock-raising, hard hit by the war, recovered fairly rapidly between 1945 and 1948 but then expansion slowed down and by the end of 1952 livestock population was actually down 4 percent from 1951. As one might expect with five-year plans, it is not easy to set any figures of stock population for 1960 but merely called for considerable expansion of stock-raising on the State and collective farms.

by the federation in promoting conservation and to assist the secretary manager, Paul Murphy, in extending the Game and Wild activities to the present five active locals — the Carillon News, Steinbach, Man.

More than 100,000 babies are born each year in the United States with no medical attention. This donation was made in appreciation of the work done of any kind.

End brakeman to head end trainman

OTTAWA.—Around newspaper circles here in Ottawa they are calling it a Royal Commission on End Trainmen. It is not really a gay affair; it is a somber matter to Canadians in all parts of the country. This is the famous hearing that rose out of the nine-day railway strike called by the Brotherhood of Firemen and Enginemen.

The commission made up entirely of judges and headed by Mr. Justice Roy Kellock of the Supreme Court of Canada. This is the hearing Prime Minister St. Laurent promised would be conducted strictly

public opinion would practically force both sides—the Brotherhood

and the Canadian Pacific Railway

to accept the findings of the judges. The railway has already

announced it would accept the judges' decision whatever it be.

In fact union officials have openly

talked of the possibility of resuming the strike when the deadline rolls around in October—crop time.

If public opinion is going to have

any effect on the union's decision

it will need the facts, and here

are some that have popped up

in this first of this special hearing.

• • •

A lady called the producer of a TV thriller series and said, "What's a wonderful program you had last night? Please tell me it turned out well."

"What happened?" asked the producer sympathetically. "Did your set go out of kilter at the wrong moment?"

"Oh, no," said the lady. "The set's fine. I just fell asleep."

The commercial fishing season of 1955-56 on Great Slave Lake in the Northwest Territories produced more than 7 million pounds of fish with a marketed value of nearly 2 million dollars.

APRIL FORECAST FOR ALBERTA

Unusually cold weather is expected throughout the province, with mean temperatures everywhere below normal. Temperatures will range from four to six degrees below normal in the southern sections, more temperature difference farther north. Coldest conditions are expected around the 8th and again around the 22nd. Preceding the first cold outbreak fast moving weather fronts are expected to pass through the region every two to three days, bringing with them much wind and rain. Fluctuations in temperatures. Following the cold outbreak indicated around the 8th, cooler air will predominate again around the 13th, with the next cold spell expected around the 22nd.

As to precipitation, moderate

to large excesses can be expected

in the foothill valleys from Calgary southward to the Canadian-U.S. border. From Edmonton on north, moisture prospects are not too good.—Country Guide.

The Mathew, the small sailing ship in which John Cabot made his voyage of discovery to Canada, carried a crew of only 18.

The Afternoon Group of the W.A. will hold an Easter Tea and Sale of Home Cooking in the basement of the church on Saturday afternoon, April 27.

Our Northern Nuggets scribe waits to know where that old crow is—We saw him on Sunday last sitting on a dead tree near the Irma slaughter house. He was singing "Billy Magoo" or words to that effect and looked as ornate and no country as ever. Like spring coming he is one of the less welcome symptoms of the approach of spring itself and is one of the things which make this happy season a mixed blessing. March has been a lovely month so may the sun shine on both crow and crocus before long.

Muscles are running riot among the younger set and some cases seem quite severe.

The next meeting of the Irma W.I. will be held at the home of Mrs. Jack on Thursday, April 4 at 2:30 p.m. Hostesses, Mrs. Jack and Mrs. M. Cooper, Raffle, Mrs. Clarence Barber, Program, Mrs. R. O. Larson. Surprise roll call.

The many friends of the Rev. Curtis Sarte formerly of Coal Springs district will be pleased to know that on Wednesday night, March 29, 1967, there will be opening devotions in the Legislative buildings at Victoria, B.C. Curtis performed this office at the request of the Hon. Leslie Peterson, formerly of Viking, who is now minister of education for B.C.

The W.M.S. would appreciate any good used clothing which comes to light when those clothes closets are spring cleaned this year. Any parcels of used clothing may be left at the church parlor to await packing and shipping for overseas relief.

Mr. and Mrs. Clair Feero were Irma visitors on Tuesday of this week.

Mr. and Mrs. David Cranton, Colleen, Myron and Eldon of Strome spent Sunday at Irma with Mabel and Barbara Mellett.

Mrs. Alma Enger is a patient in Wainwright hospital this week. We wish her a speedy recovery.

Visitors to the city this week are Mrs. H. L. Black, Mr. J. Donegane and Mr. M. T. Knudson.

Attending the W.I. conference at Medicine Hat were Mr. and Mrs. K. Coffin and Mrs. M. Enger. Mrs. Merle Knudson and Rev. H. W. Ingles were also at Medicine Hat that day.

Bylaw 455

A Bylaw of the Municipal District of Wainwright No. 61 to limit the operation of Trucks, trailers and traction engines on all public roads, highways, streets, and lanes in the Municipal District of Wainwright No. 61.

WHEREAS

Under the Provisions of the Municipal Districts Act 1954 the control of all public roads, highways, streets and lanes within the said Municipal District is vested in the Municipal District of Wainwright No. 61 and there is a duty on the Municipal District to repair the said roads.

AND WHEREAS

Under the Provisions of the Public Services Vehicles Act the Council may prohibit the use of any district road, local road, or portion thereof by any truck, trailer, or traction engine and the said Public Services Vehicles Act and the Highways Traffic Board do not provide for the control as contemplated in this Bylaw.

THEREFORE

The Council of the Municipal District of Wainwright No. 61 enacts as follows: The term "truck" shall include all trucks with a rated capacity of one ton or more and the term "trailer" shall include traction engines operated on wheel and also such motor vehicles as run on tracks.

No person shall operate any truck, trailer, or tractor on any district road, local road or portion thereof without permission of the Councillor in the division in which the vehicle is operating during any rain storm or during a rainy season or at any time when the said vehicle breaks through the surface of the roadway or causes rutting or breaks chunks of road materials from the road bed.

Any person or persons who are found guilty of a breach of this Bylaw shall be guilty of an offence and liable on summary conviction for a fine of not less than twenty-five (\$25.00) dollars and costs, for a second offence to a penalty of not more than Fifty (\$50.00) dollars and costs, for a third or subsequent offence to a penalty of not more than one hundred (\$100.00) dollars and costs.

DONE AND PASSED

In Council this 2nd day of September A.D. 1954. This Bylaw to be effective Fifteen (15) days after the passing of this Bylaw, 1st - 2nd - 3rd and final readings this 2nd day of September AD 1954.

MUNICIPAL DISTRICT OF WAINWRIGHT NO. 61
A. C. Archibald, Reeve
Chas. Wilbraham, Secretary-Treasurer.

29-5-12-19c

The Council of the Northwest Territories consists of nine members. Four are appointed, four are elected. The Council is presided over by the Commissioner of the NWT.

If you are thinking of holding an auction sale for your community get your posters printed, advertising and publicity at The Viking News office. Ask the man who has held a sale recently.
